

Quality Policy

Brabow Engineering is a family run precision engineering business which was set up in 1965 and has over 60 years of experience. Over this time, we have built a reputation based on quality workmanship, impeccable service with a friendly touch and competitively priced components. We specialise in machining prototypes and batch production of components for our UK and worldwide customers in the marine, automotive, oil, gas, steam, and aircraft refueller markets.

We are based in Gloucester, we employ the best and most experienced engineering and production staff, some of whom have been with us for many years and have a wealth of experience. We use the latest in machining technology to provide CNC Milling and Turning, Manual Milling and Turning, Jig Boring, Drilling and Welding. Our production facility houses a reliable and ever evolving plant list which includes state of the art technology, machining centres and lathes from companies such as Leadwell, Mori-Seiki and Doosan, complemented by Fanuc control systems and Renishaw probing. We also carry out inspection and quality control using CMM machines.

At Brabow Engineering, we are committed to:

- Satisfying our customers through:
 - Proactively communicating with our customers during the ordering and production processes
 - Building long term successful relationships with our customers
 - Continually updating our capability to supply critical components that meet our customers' designs and tolerances
- Complying with all applicable compliance, contractual and customer requirements
- Setting objectives in key areas of the production processes
- Selecting and working closely with suppliers to provide us with high quality components and sub-contract services
- Carrying out effective internal audits and management reviews to identify opportunities for improvement across our business and Quality Management System
- Continually improving our Quality Management System which meets the requirements of ISO 9001:2015

Ultimate responsibility for the Quality Management System rests with our Directors however we expect all our employees to be aware of our Quality Policy and join our commitments. We encourage all our employees to identify problems and make suggestions to improve all aspects of our products, services and business processes.

This policy is communicated to all our employees and is available to other interested parties on our website. This policy and the Quality Management System are reviewed annually to ensure that they remain appropriate to our strategic direction and are suitable, adequate and effective.
